

## Senior Java Engineer\* Cape Town

**Developing individual software solutions is not only our work – it is our passion. We are enthusiastic about tricky tasks, developing creative solutions and solving our customers' challenges from different industries together. In an Accso team, you can contribute as you are and constantly develop yourself further.**

Nothing is changing our working world more at the moment than the ongoing digital transformation. To achieve this, our customers need to know and change their processes. Our job is to help them do that. Join our team based in Germany now in Java Engineering focus area!

### What awaits you:

- You work in consulting and software development projects for well-known large German customers (such as BMW, Telekom etc.)
- You will be involved in all disciplines of software engineering
- You write well-designed, testable and efficient code

- You use well-known technologies such as Java, JavaScript, Spring, Kotlin, Maven, Gradle, JUnit, etc.

## What sets you apart:

- You have successfully completed a university degree in computer science or a comparable discipline
- You have at least 5 years of experience in professional software development
- You enjoy working with agile methods such as Scrum or Design Thinking
- You are proactive, pragmatic, and team-oriented

## What we offer:

- Health insurance and Vitality
- Family-friendly and flexible working hours
- Exciting projects in different industries at leading and high-tech German and European companies with different technologies
- Possibility to switch to part time if needed
- 12 continuing education days per year
- Various in-house tech communities
- Fairness, appreciation, a flat hierarchy and open communication at eye level
- Modern and nicely located office with good equipment and creative spaces
- Smartphone, laptop and whatever else you need to work - with the latest equipment (also for private use)

**It is not so important to us that you meet the job requirements 100%, but that you enrich our team with your talents, your knowledge and your nature and that we grow together. If you find yourself mostly in the job description and would like to start together with other accsonauts, we look forward to receiving your application.**
